

# Summer 2021 HEALTH AND SAFETY MEASURES OVERNIGHT CAMP

The health and safety of our campers and counselors is our top priority

## CAMP FACILITIES

### Sanitation

Sanitation stations and upgraded cleaning throughout camp.

## AT CAMP

### Cabin Groups

Activities and programs will be scheduled by Cabin Groups and by Cohorts (age groups) to reduce exposure.

## BEFORE CAMP

### Testing

Campers and staff will be required to have a negative PCR test no more than 1-3 days prior to arrival.

### Masks

Masks will be required indoors for unvaccinated campers and staff. Masks will not be required outdoors.

### Pre-Screening

Campers and staff are required to monitor and complete a daily health log for 14-days prior to arrival at camp. Everyone will be screened for symptoms upon arrival.

### Wellness Checks

Each camper and counselor will complete daily temperature and wellness checks with the Camp Nurse.

### Vaccinations

Vaccination is strongly encouraged for anyone able to access it prior to camp.

### Limit Outside Exposure

Camp will be treated as a "bubble" with no visitors allowed on site, except for essential business. Counselors will have limited outside exposure during their time off between sessions.

### Notification

Please notify the camp director or registrar if anyone in the household has traveled out of state or begins to exhibit any known symptoms within the 14-day pre-camp period.

### Hygiene

Continued training and emphasis on hygiene best practices including hand washing and covering of mouth and nose when coughing or sneezing.
